EDUCATION

Sacred Heart School

Secondary Certificate

Adra, India

Graduation Date: Jun 2021

Baldwin Farm Area High School

Higher Secondary Certificate

Jamshedpur, India

Graduation Date: Jul 2023

Techno India University

Bachelor of Computer Applications (in progress)

Kolkata, India

Graduation Date: 2026

Internships

AI/ML Intern

AICTE

- Demonstrates your ability to work on real-world AI/ML internship-level tasks.
- Organized use of Jupyter Notebook shows strong documentation and analysis practice.
- Great for showcasing skills in data analysis, machine learning concepts, and code explanation.
- Reflects your initiative in participating in a certified internship-style learning experience.

Start Date - Finish Date

Project

RetailVision — Full-Stack Computer Vision Platform for Retail Analytics

<https://github.com/bhinandanyadav/RetailVision.git>

- Developed a full-stack Computer Vision platform using Flask, YOLO, and OpenCV for real-time retail customer tracking, heatmap generation, and analytics from IP/ONVIF camera feeds
- Built ML pipelines with PyTorch, TensorFlow, and scikit-learn for object detection, dwell time, queue/crowd analysis, and configurable alert thresholds
- Implemented RESTful APIs, SocketIO real-time streaming, role-based authentication (OTP/email/bcrypt), Razorpay subscription payments, and interactive dashboards with Matplotlib/Plotly
- Deployed with Gunicorn/Waitress, managed via Git, with SQLite storage, audit logging, and a modular full-stack architecture

MusicApp — Cross-Platform Music Player Built with Flutter

<https://github.com/bhinandanyadav/musicapp.git>

- Developed a cross-platform music player app using Flutter and Dart with real-time audio playback, play/pause/seek controls, and a persistent mini player using just_audio
- Integrated Spotify, Last.fm, and YouTube Music APIs for real-time song, album, and artist search with live streaming
- Implemented Provider for state management, created/managed playlists, trending tracks, favorites, and download indicators with a clean MVVM-style architecture
- Deployed across Android, iOS, Linux, macOS, Windows, and Web from a single codebase with dark mode UI, responsive design, and Git version control

SKILLS & INTERESTS

Skills: • C programming; Python programming and its libraries (numpy, matplotlib, seaborn, scikit-learn, pandas, pillow, etc); Flutter ;Dart ;Cloud computing ;AWS ; Linux.

CERTIFICATE

- PALO ALTO CYBERSECURITY VIRTUAL INTERNSHIP (JAN-MAR 2024)
- GOOGLE ANDROID DEVELOPER VIRTUAL INTERNSHIP (APR-JUN 2024)
- GOOGLE GENERATIVE AI VIRTUAL INTERNSHIP (JULY-SEP 2024)
- ALTAIR DATA SCIENCE MASTER VIRTUAL INTERNSHIP (APR-JUN 2025)
